ARE YOU ONE OF THEM? ARE YOU READY TO GROW?

HealthInc is a 12-week fulltime accelerator program that connects you to a network of health and business professionals.

What you receive from us

Achieving product market fit.

Harnessing opportunities to connect and sell.

Becoming investment ready.

Additional workshops focused in key areas:

Improving business model, product market fit and sales pitch.

Understanding the dynamics of your runway, funding needs and become investor ready.

Gaining support from relevant industry mentors.

Garnering warm introductions to the corporate partners for validating your business model, Proofs of Concept (PoC) and even commercial contracts.

Our Partners

I am so grateful to be a part of the program. It literally changed my life. I moved my family from Bucharest to Amsterdam to become a part of the program. We dedicated almost everything and obviously it showed. The values that we got were completely amazing. We have elevated our startup in every aspect: strategy, business model, communication style, the list goes on. We have got a lot of exposures and interests for fundings that we could not have done ourselves. We have a lot of advancements in generating revenues and refining our products.

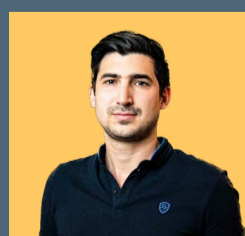

Mihai Draghici, MedicPad
